Healing Touch of Reiki

What is Reiki?

Reiki is a Japanese form of spiritual healing that involves a specially trained therapist holding their hands above the body. Since originating in Japan, it has been adapted into various cultural traditions across the world.

Reiki therapists are attuned to the “life-force energy” all around us. They are able to use palm healing or hands-on healing by which a universal energy is transferred through the palms of a therapist to a patient in order to encourage healing. It is a powerful spiritual experience for most people.

If you are interested in learning more, we encourage you to schedule an appointment with our Reiki therapist by calling Patty at (440) 278-7103.

How does Reiki Heal?

Reiki promotes stress reduction and relaxation as well as healing. If your “life force energy” is low, then you are more likely to get sick or feel stress. When your life energy is high, you are more capable of being happy and healthy.

A Reiki treatment feels like a wonderful glowing radiance that flows through and around you. Reiki treats the whole person including your body, emotions, mind and spirit creating many beneficial effects that include relaxation and feelings of peace, security and well-being.

Reiki is a simple, natural and safe method of spiritual healing and self-improvement that can help everyone, even children.

It has been effective in helping virtually every known illness and malady and always creates a beneficial effect. It also works in conjunction with all other medical or therapeutic techniques to relieve side effects and promote recovery.

Reiki Therapist Patty DeJohn graduated with a degree in Psychology from Ursuline College and received her Masters Degree in Clinical Counseling from John Carroll University. In addition to her Bereavement work at DeJohn Funeral Homes, Patty shares her expertise with the community through workshops and lectures.
